Antimicrobial treatment disclosure

We, Tropic Fishery, legal name Ribnjak Janj d.o.o., hereby officially declare that no antimicrobial treatments, including antibiotics or any other antimicrobial agents, are used at any of our aquaculture facilities. Our trout farms adhere to strict health management practices that ensure the highest quality and safety standards, focusing on sustainable and responsible farming methods.

This commitment aligns with our dedication to producing healthy, high-quality fish while safeguarding the natural ecosystems surrounding our farm sites.

For any further inquiries, please contact our team.
